RIVAL ENGINEERS WORK.

Burlington and Northwestern Employes Close Together.

(Special to The Herald.) Afton, Wyo., Nov. 15.—Rival engineering parties are harrying surveys for their respective companies through the Teton mountains, the Jackson Hole country and on to Idaho. One outfit is in the employ of the Burlington company and is surveying for the extension of the Alliance-Guerasey line, work on which is to be resumed at Guernsey in the near future, according to the official arrhouncement of General Manager G. W. Holdrege.

nouncement of General Manager G. W. Holdrege.
The other corps is working for the Chicago & Northwestern and is surveying for the extension of the Northwestern's Casper-Lander line from Lander through the mountains to a connection with the Oregon Short Line at some point in Idaho. The Northwestern survey follows Hoback creek and Snake river.
The surveyors at times are camped and work so close together that they exchange courtesies, although they will not talk about their plans.

CAR IS ELEGANT.

One Built for Senator Clark Is a Model.

Car 2001 of the Sait Lake Route, Senator W. A. Clark's private car, has just been turned out of the shops and is considered one of the finest now on rails. It is of immense size, being seventy-six feet in length, several feet longer than the longest standard Pulinaa. It has been built to wear, as it rests on a steel floor, and steel is used wherever possible.

Inside, the car has the appearance of a palace. It is divided into seven compartments, including a kitchen, dining room, two sleeping apartments, bath, office and observation apartment. The woodwork throughout is highly polished. The dining room, office and other living apartments are elegantly furnished in every way. Heavy, costly curpets are laid on the floors, the walls are made of the finest polished wood. The ceflings are freescoed. The car is lighted with electricity.

WILL TALK ON ACCIDENTS.

Employes of Union Pacific Road to Gather.

Engineers, conductors and other trainmen of the Union Pacific system are holding a conference with General Superintendent W. L. Park in Omaha, called for the purpose of discussing causes of railway accidents and methods whereby they can be made less frequent. These men will present ideas and plans, which, if reasonable and effective, will be used by the company in preventing, as much as possible, accidents occurring on the lines of that system.

This is the first conference of this nature ever held by trainmen and officials of any road. Hunters Make Reports.

MORMON POKER EXPERTS.

Sheriffs Barlow Wilson and G. Alva Sebring about 4 o'clock yesterday afternoon, when H. Clark. George Cudahey, slias Hammond, and Harry Hughes, alias Raymond, were caught in the act of defrauding a victim at "Mormon poker" in a Lincoln avenue rooming house. The trio had only been in Ogden a few hours before their arrest, having come here from Sait Lake, where they received a time order from the authorities yesterday. The victim was James Torrey, a farm hand from Flint, Mich., who was on the way to Los Angeles, Cal.

ties yesterday. The victim was James Torrey, a farm hand from Flint, Mich., who was on the way to Los Angeles, Cal.

According to the story as gathered from the victim and the alleged crooks. Torrey was waiking about the Union depet about 3 o'clock in the afternoon, waiting for a train to take him to California, when he was approached by Hughes, who soon started up a conversation and learned that Torrey was going to California, where he hoped to secure employment and remain. Hughes told the unsuspecting fellow that he had a friend in Ogden at present who was an agent for a big packing concern there, and that they were looking for good employes. Under this guise Torrey accompanied the fellow to a room on Lincoln avenue, where there were two other mer, apparently strangers, and who were pizying cards. The "agent," not being in just then, Torrey was invited to get into the game, sad when he pleaded that he did not know the game, he was told that it was "just for fun" and that he could lose nothing. In this way he was induced to put up his money. He soon lost \$43 and perhaps would have lost more had not the officers stopped the game. Deputy Wilson, who was for a number of years on the local police force, had seen one of the gang on the street and recognized him as being a crook who had turned a trick here before. Later it was learned that the trio had secured a room at the rooming house where the arrest was made, and 'he two officers were secreted in an adjoining room when their victim was brought in the place. They forced an entrance to the room while the game was on in full swing and the table was stacked with chips and money. On the way to the sheriff's office attempts were made and these attempting to bribe an officer will likely be placed against them, which is a penitentiary offense, while the best that could have been done otherwise would have been to convict flem of a misdemennor. Clark is an old-time offender and has a record, but the other two are new men in this section, but from the part they took in ye

District Court.

A petition for letters of administration of the estate of Henry T. Chard, deceased, was filed in the district court yesterday by Mary Ann Chard, widow of the deceased. The petition states that Chard died intestate Jan. 31, 1897, and left an estate valued at \$900, consisting of real estate.

In the matter of the estate of Elizabeth W. Douglass, Judge J. A. Howell signed an order directing that a citation be issued for the appraisers of the estate. H. B. Stratford, Joseph C. McFarland and Robert I. Burton, to appear in court on Saturday, Nov. 18, at 10 a. m., and show cause why they should not be removed as appraisers and their appointments vacated for trifling with their duties. It appears that they had appraised the estate at \$3,000 and subsequently the same was reduced to \$2,500 by them.

About 8 o'clock last evening after several hours' deliberation, the jury in the case of O. L. Puryear against the Union Pacific Railroad company brought in a verdict for the plaintiff in the sum of \$2,700. Puryear asked for \$15,000.

No joy or pleasure on this earth quite equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the fragile delicate mite that is blood of their blood

depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother? Barrenness proceeds from some derangement of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Favorite Prescription overcomes barrenness by stamping out diseases of women, and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful it makes the little one healthy, vigorous and good natured. Insist upon the med icine dealer giving you Dr. Pierce's Fa vorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Blacker, of 649 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Pavorite Prescription' I have much better health, and now I have a fine healthy baby." A board was raised in the floor and the smoke poured out in volumes. It was traced about forty feet along the joists and the seat of the fire was found under the kitchen range. The joist was burned and in a few minutes more the fire would have broken out and caused considerable damage. The firemen used small chemical machines and put out the flames.
